Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 3(c) Other: All of the changes made to the drawings have not been explained in detail as required by 37 CFR 1.121(d). In particular, the elements purportedly possessing elastomeric cross-hatching have not been identified. Further, cursory review does not reveal the presence of elastomeric cross-hatching (solid thick lines). Rather, it appears that several elements have been provided with plastic cross-hatching (alternating thick and thin lines).
